

Projects:

1. Write a Simple HTML program for displaying "Hello World!"
2. Design a web page of displaying "Hello World!" by using Heading Tag
3. Design a web page by demonstrating the usage of Paragraph Tag
4. Design a web page by demonstrating the usage of HTML lists
5. Design a web page by demonstrating the usage of HTML list type attribute – "A"
6. Design a web page by demonstrating the usage of HTML list type attribute – "a"
7. Design a web page by demonstrating the usage of HTML list type attribute – "I"
8. Design a web page by demonstrating the usage of HTML list type attribute – "i"
9. Design a web page by demonstrating the usage of HTML list with start attribute
10. Design a web page by demonstrating the usage of HTML list type attribute – "square"
11. Design a web page by demonstrating the usage of HTML list type attribute – "circle"
12. Design a web page by demonstrating the usage of HTML list type attribute – "disc"
13. Design a web page by demonstrating the usage of HTML list type attribute – "none"
- 14.** Design a web page by demonstrating the usage of Nested list in HTML
15. Design a web page by demonstrating the usage of HTML Table tags.
16. Design a web page demonstrating the usage of HTML Image Tag
17. Design a web page by demonstrating the usage of HTML Video Tag
18. Design a web page by demonstrating the usage of HTML Audio Tag
19. Design a web page by demonstrating the usage of Div Tag
20. Design a web page by demonstrating the usage of HTML Marquee Tag.
21. Design a web page by demonstrating the usage of HTML Marquee Tag with image.
22. Design a web page by demonstrating the usage of HTML background attribute.
23. Design a webpage to open an external link
24. Design a webpage to open a mailto link
25. Design a webpage to open a phone number link

26. Design a webpage to open a section on the same page using links
27. Create a web page demonstrating the use of the ** (bold) tag.**
28. Create a web page demonstrating the use of the ** tag.**
29. Create a web page demonstrating the use of the *<i> tag.*
30. Create a web page demonstrating the use of the * tag.*
31. Create a web page demonstrating the use of the <u> tag.
32. Create a web page demonstrating the use of the <mark> and <small> tags.
33. Design a web page by demonstrating the usage of Form Tag
34. Design a web page by demonstrating the usage of Radio Button
35. Design a web page by demonstrating the usage of Check Box
36. Design a web page by demonstrating the usage of Dropdown
37. Design a web page by demonstrating the usage of Text Area
38. Design a web page by demonstrating the usage of Button
39. Design a web page demonstrating the usage of the '<sup>^{' tag}
40. Design a web page demonstrating the usage of the <sub>_{tag}
41. Design a web page demonstrating the usage of the ~~ tag~~
42. Design a web page demonstrating the usage of the <ins> tag
43. Design a web page demonstrating the usage of the *<q> tag*
44. Design a web page demonstrating the usage of the `<kbd> tag`
45. Design a web page demonstrating the usage of the
46. Design a web page demonstrating the usage of the
47. Design a web page demonstrating the usage of the
48. Design a web page demonstrating the usage of the 'cols' attribute in
49. Design a web page demonstrating the usage of the 'rows' attribute in
50. Design a web page demonstrating the usage of the 'frameborder' attribute in
51. Design a web page demonstrating the usage of the 'border' attribute in
52. Design a web page demonstrating the usage of the 'noresize' attribute in
53. Design a web page demonstrating the usage of the
54. Design a web page demonstrating the usage of the
55. Design a web page demonstrating the usage of the
56. Design a web page demonstrating the usage of the

57. Design a web page demonstrating the usage of the <section> tag.
58. Design a web page demonstrating the usage of the <aside> tag.
59. Design a web page demonstrating the usage of the <footer> tag.
60. Design a web page demonstrating the usage of the <figure> and <figcaption> tags.
